EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Carl Schwartz on 10/12/00.

2. The application has been amended as follows:

In the claims:

In claim 1, line 1, the word "pluripotent" has been inserted prior to the word "human".

In claim 3, line 1, the word "pluripotent" has been inserted prior to the word "human".

In claim 9, line 1, and the last line of the claim, the word "pluripotent" has been inserted prior to the word "human".

3. The following is an examiner's statement of reasons for allowance:

Applicants have disclosed pluripotent embryonic stem cells. While it has been held during prosecution that the term "embryonic stem cells" has a particular meaning that necessitates that

Art Unit: 1633

said cells have the property of germ line transmission, this argument is withdrawn in view of applicant's argument. Specifically, the art itself is inconsistent as to whether ES cells necessarily have the property of germline transmission. Further, it is noted that applicants have taught *in vitro* uses for the cells that do not require this property. No where in the specification is it implied that applicants intend to produce recombinant humans using said cells. Therefore, the property of germ line transmission is not required for practice of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
